

myAgility: Your Recovery Planning Platform

What is myAgility?

To establish and maintain the backbone of your Agility solution for your organization, myAgility provides 24/7 secure platform access to your recovery profile and planning elements.

- ▶ How will Agility help recover your business? ▶ Where will your employees and clients go for recovery?
- ▶ What are the immediate first steps for responding to a disaster? ▶ How will you restore your most critical functions?

These questions and many more will form the basis from which Agility will execute your recovery.

Regardless of the interruption, the myAgility Platform will easily allow you to build a recovery profile, develop an internal communications strategy, send alert notifications, and store critical documents to facilitate the recovery.

PLANNING FOR THE ESSENTIAL ELEMENTS OF RECOVERY.

Your Recovery Planning Platform is there to help plan and prepare for any interruption.

myAgility is ready to respond with:

- ▶ Individual Recovery Profiles for those customers with multiple covered locations
- ▶ Unlimited character text messages to any of the Employees and Vendors you have added
- ▶ New User Account control with enhanced Account Settings to grant specific access to only the area a user needs (*what you choose for your users*)
- ▶ Internal Message Center where you can send and receive messages to other internal myAgility users
- ▶ Step-by-Step Tour to fully introduce you to the new planning platform

myAgility has a 'Click to Declare' capability throughout the myAgility site where members can complete a quick form and place Agility on Alert or Declare a disaster.

myAgility comes with an Alert Notification System built in

MYAGILITY'S ALERT NOTIFICATION SYSTEM.

Reliable **COMMUNICATION**

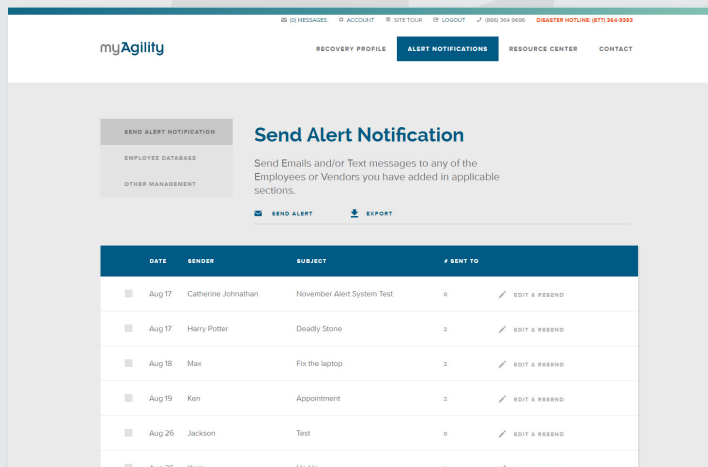

myAgility's Alert Notification System is a powerful and effective communications tool for use during those moments when every second counts. It allows you to immediately stay in touch with your employees, vendors or anyone else requiring critical information before, during and following any business interruption or disaster.

ALERT AND NOTIFY YOUR EMPLOYEES & VENDORS.

With a click of a button in the myAgility Platform and the myAgility Family mobile app, send notification via email or text providing communications to:

- Immediate access from anywhere via the myAgility Platform or the new myAgility Family mobile app, available for purchase in the Apple App Store or Google Play Store
- Store employee contact information by importing existing lists
- Build distribution lists of employees and vendors
- Communicate any updates at any time to anyone

We would be happy to setup a demo of the new myAgility Platform and answer any questions you may have.
